Henry Brown

Milwaukee, WI | 935-524-0923 | henrywbrown15@gmail.com

EDUCATION

Wisconsin Lutheran College | Physics B.S. | Mathematics Minor | *Expected May 2028*

TECHNICAL SKILLS

- **Machining & Manufacturing:** CNC machining, manual machining, metrology, design for manufacturability (DFM), technical drawing interpretation, welding, fabrication.
- **CAD:** Autodesk Fusion 360
- **Programming:** C++, Python
- **Laboratory:** Experimental design, laboratory instrumentation, data collection and analysis, uncertainty analysis

TECHNICAL WORK EXPERIENCE

H&W Manufacturing — CNC Machinist

Houston, TX | *Summers 2024–2026 (three summers and an additional month)*

- Operated CNC mills, saws, conventional lathes, and Swiss-type lathes in a manufacturing environment.
- Interpreted engineering drawings and inspected machined components using calipers, micrometers, gauges, and comparators.
- Made operational adjustments to maintain customer specifications for dimensional tolerances and surface finish while optimizing machine efficiency.
- Maintained and repaired machines when needed.

ENGINEERING PROJECTS

Variable-Separation Magnet Jig 2026

Mechanical design & fabrication | *Physics Research project* | *2026*

- Designed and fabricated a screw-driven fixture for adjustable separation of two N52 neodymium disc magnets for magnetohydrodynamics experiments.
- Applied Fusion 360 CAD modeling and precision machining to develop a versatile mechanical assembly capable of withstanding strong magnetic forces across multiple experimental configurations.

Landscaping Utility Vehicle 2023

Mechanical engineering & fabrication | *Personal Project* | *2023*

- Rebuilt a salvaged 1990 Cushman GT chassis without an engine into a functional utility vehicle through iterative design, fabrication, testing, and modification.
- Integrated a salvaged 16 hp engine, custom throttle, choke, and clutch linkages, and a self-built high/low dual-clutch V-belt transmission.
- Fabricated and installed a roll cage, lighting system, keyed ignition, suspension components (coil springs and shocks), and a dumping bed with a tailgate.

ADDITIONAL WORK EXPERIENCE

Chipotle Mexican Grill — Service Leader
Brookfield, WI | September 2024 – Present

- Promoted from Crew Member to Kitchen Manager and then Service Leader within one year.
- Direct daily shift operations and coordinate task assignments for teams of 7–8 employees in a fast-paced environment.
- Train and coach team members while maintaining food quality, safety standards, and efficient workflows.
- Manage closing procedures, inventory, food preparation, and catering orders; troubleshoot equipment issues and perform repairs when possible.
- Resolve customer concerns and emergencies while handling cash management and register reconciliation.

Wisconsin Lutheran College, Student Life Office — Team Lead
Milwaukee, WI | December 2024 – Present

- Lead a five-person student team in completing administrative projects and meeting the operational needs of the Office of Student Life.
- Coordinate campus vehicle reservations, commuter applications, student locker sales, and voter registration processes.
- Manage confidential student records, student handbook updates, and administrative procedures.
- Carry out special projects and administrative tasks assigned by the Vice President of Student Life.

Luther Preparatory School — Custodian
Watertown, WI | February 2021 – May 2024

- Maintained cleanliness and sanitation throughout classrooms, hallways, restrooms, stairwells, the gymnasium, and auditorium.
- Consistently performed custodial duties before the start of the school day throughout high school.
